APPENDIX "A"

1. Provide for each unit, plant, and the system, as appropriate, the operating statistics and costs reflected on Format 1 for the period November, 1978 through October, 1980.
2. Provide the data in Format 2 for scheduled, actual, and forced outages by month for calendar year 1980.
3. Provide by unit the planned or scheduled maintenance for calendar year 1981.
4. Provide the following data for the system for 1980:
 - a. Capability Margin
 - b. Demand:
 1. Annual Maximum
 2. Average
 3. Coincident Peak
 4. Non-Coincident Peak
 5. Firm Power Commitments for 1981
 - a. Purchases
 - b. Sales
 - c. Heat Rate (at the meter)
5. Provide the following information for each coal contract in excess of one year:
 - a. Annual Tonnage Requirements
 - b. Percent of Annual Requirements received for the 12 months ended October 31, 1979 and 1980.
 - c. State if Contract Price escalators are based on increases in operators cost (i.e. cost plus) or on price indices. If some other basis is used, please explain.
 - d. Provide a detailed list of adjustments to Inventory for the period October, 1978 through October, 1980 together with a detailed explanation of all factors which resulted in the adjustment being required.
6. Provide by month a Billing Summary for sales to all KERC jurisdictional companies for the period November, 1978 through October, 1980.
- *7. Provide the following information for line loss:
 1. Calculation of the 12-month average line loss by month for the period November, 1978 through October, 1980.
 2. Steps that have been taken to reduce line loss during this period.
- *8. Provide a summary showing by month the calculation of over or under recovery of fuel costs, updated from 1979 through October, 1980 and the cumulative monthly balance from November, 1978 through October, 1980.

*Distribution RECC's are required to provide this data only.

9. Provide a calculation of the fossil fuel costs (F) that the company proposes for use in calculating the base period fuel cost. The calculation should show each component of (F) as defined by 807 KAR 50:075. State the month used as the base period and provide a comprehensive detailed explanation of the factors considered in the selection of this month as being representative of the net generating cost per KWH which the company can reasonably expect to incur on a going basis. If a month subsequent to October, 1980 is used, as the base period (b) provide the data requested in Format 1 for the month selected.
10. Provide a schedule showing each component of sales in the selected base period (b) and a detailed explanation as to the reasons the company believes the sales in the selected base period are representative of the level of KWH sales which the company can expect to derive from the level of fuel cost incurred during the selected base period.

NOTE: Reference should be made to "Glossary of Electric Utility Terms" EEI Publication 70-40 for definition of terms used in the preceding requests and attached footnote or to 807 KAR 50:075 as appropriate.
